Lancaster Farming

VOL. 15 NO. 44 Lancaster Farming, Saturday, September 26, 1970 $2 00 Per Year

Marilyn B Krantz, shortly after being named Pennsylvania Dairy Queen Thursday night in Harrisburg

Marilyn B. Krantz Is Pa. Dairy Queen

Miss Marilyn B Krantz of Lancaster County is the new Pennsylvania Dairy Queen

She won the state title in competition with 21 other county winners in Harrisburg Thursday night

Beside winning the state crown, the 17 year old Marilyn was voted Miss Congeniality

The charming independent five foot five and a half inch lass has blue eyes and golden blonde hair

She is the daughter of Elvin B Krantz and the late Meda C Dombach Krantz

Marilyn has been carrying on her mother's duties as well as her own on the Krantz farm on Sawmill Road New Providence RD1 She inherited her mother's talents as an artist, a good cook and housekeeper She likes arts and crafts

Marilyn has one sister, Carol, who is married and lives at Leola.

Other Queen titles won by Miss Krantz were 1966 Junior 4 H and 1969 Senior 4-H Queens of Lancaster County In June she was chosen Lancaster County Dairy Princess over seven other contestants.

She has been a member of the Lancaster County 4 H Holstein Club since she was nine years old and a member of Lampeter - Strasburg Merrimaids 4 H Club for six years and has served as president, secretary, treasurer and game leader She was in their cooking club until she was 13 and in the sewing club six years Marilyn loves horses and has had one since she was eight years old.

A senior at Solanco High School where she is taking the academic course, her favorite subject is art She is a member of the Art Club She attended Providence Elementary School and is active in the New Providence Mennonite Church

Runner-up for the Pennsylvania Dairy Queen title was Faye Blessing of York County.

New Holland Fair Slated Next Week

The 39th annual New Holland Farmers' Day Association Farmer's Fair will be held on Wednesday, September 30 through Saturday, October 3

The 4-H Baby Beef Club exhibit, show and sale, is under the direction of County Agent Max M Smith, representing the County Agriculture Extension Service The calves will be judged on Thursday afternoon at 1 p m They will be sold at the New Holland Sales Stables after being judged

The 4-H Community Club under the direction of Arnold Lueck Assistant County Agent, will exhibit pigs fed by club members, and they will be judged on Thursday, October 1, and sold at public auction at 2 p m Friday The show is sponsored by the Rotary Club of New Holland

Exhibit areas will include items such as grains, vegetables, fruits, flowers, domestic and fine arts, and school exhibits of clothing needlework and prepared foods

The Flower Show will be held in the Boy Scout Home South Roberts Avenue

Art and Handicraft Show will be held in the former Coffee Shop building, adjoining the theater on East Main Street

There will be a tent on the Earl Sauder lot for beef and pigs

Potatoes will be displayed in the A B C Groff, Inc, building Hay, corn and tobacco will be displayed in the tent at Earl Sauder's

The sale of the baked goods and candy will be held in the Elementary School auditorium at 12 noon Wednesday, immediately following the judging of these articles Proceeds from the bake sale will go to the Garden Spot 4-H Sewing Club Construction Awards

The Pet Parade at 7 30 p m Friday will form on Main Street between Railroad and Brimmer Avenues It will move west on Main Street to Roberts Avenue, south to Franklin, east on Franklin to Railroad Avenue, then to Main Street, east on Main to the starting point

All information concerning the fair can be obtained at the Fair Office by calling 354 5880 on or after September 29

2 Local FFA Members Win Eastern U.S. Award

Gerald Wolfe, son of Mr and Mrs John Wolfe, Manheim RD4 placed first in the Farm Mechanics Electrical contest held at Springfield, Mass September 18 and 19

The Pennsylvania team, made up of Wolfe and John Thomas, Biglerville, a member of the Apple City FFA Chapter, also placed first, giving Pennsylvania the first place team in the East

Dennis Landis, Penn Manor FFA, served as an alternate to the team

Robert Hess of Strasburg RD1 demonstrates at the Lampeter Fair Thursday what happens when modern conveniences fail. The automatic milking equipment didn't function so Hess had to do some hand work on some of the Holsteins he was showing at the fair.

Markets provided by Commodity Dept., Reynolds & Company

Local Grain Prices

These prices are made up of the average prices quoted by six participating local feed and grain concerns. It should be noted however, that not every dealer handles each commodity. All prices are per bushel, except for ear corn which is per ton

The average local grain prices quoted Thursday, Sept 24, 1970, are as follows.

	Bid	Offered
Ear Corn, Old	$42 00	$46.00
Ear Corn, New	29 00	33.00
Shelled Corn	1 59	1 75
Oats	83	.93
Barley	1 08	1 19
Wheat	1 51	1.65

"Bid is the price the dealer will buy from the farmer delivered to the mill. Offered is the price the dealer will sell for at his mill.

Federally Inspected Livestock Slaughter

For week ending September 24, 1970

	Cattle	Hogs	Sheep
Week to date	487,000	1,294,000	168.000
Same period last week	494,000	1,330,000	171,000
Same period last year	476,000	1,265,000	171,000

Estimated daily livestock slaughter under Federal Inspection.

Green Dragon

The Green Dragon market reported receipts of 182 head of above average dairy cattle Friday. September 18, fair attendance and prices steady.

Consignments included:

Load of Canadian Cows — $410.00-575 00.

Herd of Penna. Cows, fresh and milking—273 00-630.00.

Load of Canadian Cows — 375.00-600.00.

Load of Maryland Cows — 275 00-437 50.

Herd of Chester Co. Cows — 250.00-580.00.

HAY MARKET SEPTEMBER 18

3 loads hay, including: one load timothy, 25.50; two loads clover. 27.50 and 32.00.

3 loads straw, 27.00-30.00 per ton.

New York Eggs

Market about steady on large, barely steady on medium and smalls. Receipts light. Demand is irregular slow to occasionally fair. Diversions to out of town points are slower but some good small lot trading noted locally in advance of religious holiday next week. Large whites unevenly distributed but ample for current needs. Adequate stocks of mediums are being reduced under slightly improved call and restricted receipts. Smalls are adequate, standards and other lower quality grades ample. Large browns, whole not burdensome, are generally ample with street sales noted at 45-47c. Cartoning activity irregular, improved slightly in some quarters. Undertone nervous and cautious.

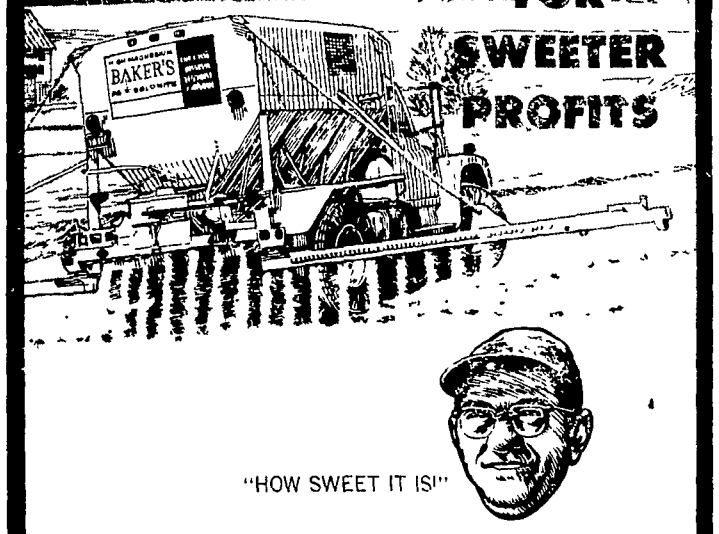
SWEETEN YOUR SOIL FOR SWEETER PROFITS



"HOW SWEET IT IS!"

Call BAKER or BURKHOLDER

for delivery of quality aglime

David M. Burkholder, Inc., Ephrata, and The J. E. Baker Company of York have embarked upon a joint aglime program to serve you better. We feel that this move will enable us to supply you with the highest quality agricultural limestone when and where you want it.

Remember, now is the time to sweeten your soil for a more productive growing season. It has been estimated that liming can return from $3 to $10 in bigger and better crops for every dollar invested.

Take the first step to higher profits now. Call 354-4202 in Ephrata for quality aglime.

The J. E. Baker Company

Pa. Eyes Farm Export Market

Pennsylvania is the first state to become involved in a new computerized trade referral system designed to promote foreign sales of U.S. agricultural products.

The names of Pennsylvania firms, together with a list of their food products, now are immediately available in answer to inquiries received at American embassies and consulates in all parts of the world.

The list is made up of firms which indicated their interest in foreign trade to the Bureau of Markets, Pennsylvania Department of Agriculture. The Bureau of Markets prepared the information on special forms and supplied it to the Foreign Agricultural Service, USDA, for computerization.

The importance of foreign trade to U.S. agriculture cannot be overemphasized. Sales of U.S. farm products abroad have been running in the $5 billion to $6 billion range per year and there is real hope this can be increased substantially.

Despite increasingly higher operating costs, the ever growing ability of U.S. farmers to produce more at lower costs enables many phases of U.S. agriculture to remain competitive with foreign agriculture. The highly developed combination of capital and know-how in the U.S. enables production in such volumes as to enable competition with products produced in areas where the cost of labor is minimal.

In sale of farm products, as with most everything attempted across national boundaries, the major obstacle is communications. It's difficult for buyers and sellers to know about each other and to get together for exchanges which can be mutually beneficial.

Pennsylvania's new effort in this direction is commendable.

Every agriculturally-related firm which is seeking new markets should make sure that the Pennsylvania Bureau of Markets is fully aware of its needs.

At a time when U.S. agriculture is worried about market gluts — not recent concern about eggs and pork — and millions of persons abroad go to bed hungry each night, shipment of U.S. agricultural products abroad is a logical step toward bringing together supply and demand.

This is not to minimize the problems in international trade.

Despite the problems, it would appear that the export market offers real potential to those segments of U.S. agriculture in need of new and expanded markets.

NOW IS THE TIME...

By Max Smith
Lancaster County Agent

To Store Corn Properly

Corn that is not to be made into silage must be stored in a well ventilated crib or bin and not on the ground floor, unless supplemental air or heat is to be added. Also, corn to be made into high-moisture feed would be another exception. We have noted that some grain storage bins, and places of temporary storage, are on earth floor or on concrete that has not been poured on a vapor barrier such as plastic. Corn will draw moisture from the ground and mold if not properly protected.

To Control Rats

Rodents such as mice and rats will soon be heading for buildings due to weather conditions. All possible nesting places should be eliminated before hair gets on corn in order to keep down the population. Good sanitation measures are very important. Clean out all places where they may hide or make nests. Holes in concrete floors and stone or block walls should be filled with concrete. Prevention is needed along with a poison bait program to keep down the rodent problem.

To Make High-Moisture Corn

Dairymen and cattle feeders are placing more attention on high-moisture corn for better feeding results. This means harvesting the corn when it is 30 to 35 per cent moisture for the ear corn and when 25 to 30 per cent moisture for the shelled corn. A good silo is needed and does not have to be an air-tight silo for the ground ear corn, shelled corn has given

(Continued on Page 10)

Some Egg Marketing Facts

Can eggs be used as an advertising drawing card by retail stores? Yes.

Do increased egg sales before holidays cut down on sales after holidays? No.

Does egg demand vary seasonally? Yes.

These are some of the findings found in unpublished research reported recently by Progressive Grocer.

The findings were based on an Atlantic Study by J. T. Spearman in his University of Georgia MS thesis and a Central New York Study by F. A. Helfst in his Cornell University MS thesis.

The type of information contained in these reports is important for egg producers and allied industrymen interested in maintaining and increasing egg production and consumption.

The specific findings in these two reports included the following:

1. **Advertising mention increases the sale of eggs.**

The mention of eggs in food page advertising with or without mention of price, cents off, or added display advertising, increased volume of egg sales. (Atlanta and Central New York Studies)

2. **Customers do not stock up on eggs for future use.**

There was no decrease in volume of eggs the week following a sale. In fact movement both the first and second week after an advertised sale was better than average movement of all non-sale weeks. (Atlanta Study)

3. **Eggs do not have the new customer pulling power of some other types of advertised food.**

When Chain A advertised a special price on eggs, egg sales of Chain B which did not advertise, were not affected. (Atlanta — 2-year Study)

Advertised egg sales increased egg movement from 20 to 100 per cent without increasing customer count as measured by number of machine tapes. (Central New York Study)

4. **Advertising a specific grade, size or brand of eggs increases all egg sales.** (Atlanta Study)

5. **Egg sales increase the week preceding food-associated holidays.**

The effect of Easter on egg sales is well known. Sales for Christmas may be equally good. But Thanksgiving, Labor Day, and to a lesser extent July 4, all appear to increase egg sales. The key here is — **the week preceding** — not the week of the holiday. (Atlanta and Central New York Studies)

6. **Consumer demand for eggs varies seasonally and is reflected in retail stores.**

Retail egg sales, when adjusted for holiday demand and special sales, and related to average weekly volume, are 10 per cent above average September through Easter and 10 per cent below average after Easter through August. (Atlanta Study)

Help Child Listen

It is commonly accepted that the environment a child lives in strongly affects his development according to Sandra Eaton, extension home economist, Chester County.

For instance, if a child had to breathe badly polluted and contaminated air, changes would be slowed or impaired. The same is true that his lung development could be said if a child drank large quantities of polluted water every day. His total physical development would suffer.

Parents are concerned about the bad aspects of the environment. Often they forget about the many good aspects of the physical environment.

To a child, his entire world is new. The two-or-three-year old is interested in learning all about the world. But he must learn to listen to his world and to observe it, points out Mrs. Eaton.

Parents can help their children learn to listen by taking a "listening walk." They can walk anywhere because sounds are all around them. First, they listen. Then parents can encourage children to describe or identify the sounds.

The learning child will be grateful to his parents who take the time to help him listen, to observe his world. He will learn more about the many wonderful things that make up his physical world. But he will learn more. He will learn how to better explore his environment and to appreciate it.

THE POWER OF LOVE

Lesson for September 27, 1970

Background Scripture: Genesis 37 through 38, 44, John 15:12-14
Devotional Reading: John 10:7-18.

Jacob encountered God and his life was transformed. Jacob the Supplanter became Israel the patriarch of God's people.

That doesn't mean he never made any mistakes thereafter. He was human and, like all human beings, he made wrong judgements and decisions.

Rev. Althouse

Trouble in the family

For one thing, there was trouble in Israel's family. No wonder! He had four wives (actually two of them were concubines) and twelve children—a houseful in any man's book. You will remember that his father-in-law had tricked him into working for and marrying Leah. Jacob accepted this without rancor and proceeded to work seven more years for Rachel whom he had loved from the beginning. Even though Leah bore him his first son, she never felt really wanted in this household and Joseph, Rachel's child, clearly became his favorite.

It was obvious to everyone. Joseph got the best of everything, including that beautiful multicolored coat. We can imagine how the other brothers felt when the "spoiled brat" walked among them with his "badge" of preferred status. It does not even seem that Joseph shared the labor which his brothers had to perform.

Of course, Joseph made matters even worse. The seventeen-year-old youth, seemingly more handsome and intelligent than the rest, was all too aware of his advantages and flaunted them before his older, jealous brothers. We find also that he was a "tattletale," who took "ill reports" to his father concerning his brothers. How they must have despised this "spoiled brat"! How they must have bristled when he told them of his dreams in which he saw himself as superior to them!

The violent act

There came at last the day of reckoning for Joseph. In one violent hour his whole life was changed and his beautiful world came crashing down about him. Tensions, hatred, violence—and one brief hour can change the lives of any of us. Even minutes mixed with the wrong emotion can turn our world upsidedown.

Many years later Joseph and his brothers stand face to face once again. They do not recognize him for Joseph has become the close associate of the Pharaoh of Egypt. Because of the great famine and Joseph's skill as an administrator, virtually the whole kingdom is in his control. If ever a man desired a position in which to exact vengeance, Joseph was in it.

Yet, in the years that had separated them physically, there had been some radical changes in their family and themselves. Joseph had outgrown his haughtiness and his brothers had come to realize the immensity of their crime against him. Best of all, love seemed to have entered Israel's troubled home.

Judah had come to realize the terrible unhappiness they had caused their father in getting rid of Joseph. Realizing how he had grieved Israel, Judah forgot his jealousy and began to love his father with a love that did not demand anything in return. Though once he had resented the special love his father had shown Joseph, he now accepted without bitterness the special love Israel bestowed upon Benjamin.

Greater love hath no man . . .

Judah cannot bear to think of the sorrow Israel will suffer if the brothers must return without Benjamin, leaving him as surety with Joseph. ". . . when he sees the lad is not with us, then . . . he will die" (Genesis 44:31). Judah, forgetting himself, is caught up in concern for his father: " . . . let the lad go back with his brothers . . . " In Benjamin's place, he will stay. Such is the power of love.

Miller Cows Win at Lampeter

A Lancaster County dairyman who says he's always ready to buy a good dairy cow, no matter what the breed, captured most of the top honors in dairy competition at the Lampeter Fair Thursday afternoon

For Marvin Miller, a Strasburg RD1 dairyman, it was the second straight good week. Miller's animals placed high in several breeds at the Solanco Fair at Quarryville last week.

Miller was particularly pleased this week that his outstanding Holstein, a five-year-old called Ink Spot, finished first

Ink Spot was second at Solanco last week to a nine-year-old displayed by Dr and Mrs Carl Troop, Quarryville RD3 But this week at Lampeter, the standings were reversed with Ink Spot first and the Troop cow second

Ink Spot placed fourth in the five-year-old class at the Pennsylvania Black and White Show Tuesday, Miller noted

Miller is already making plans to show Ink Spot at the Manheim Fair and is looking forward to the Farm Show in Harrisburg in January He noted the animal is due to freshen in mid-December and he hopes Ink Spot will be at her peak for showing purposes at the Farm Show

Actually, Miller said he owns Ink Spot jointly with Ira D Welk, Quarryville RD3 on whose farm the animal is housed Welk has the animal on a DHIA testing program and Miller reported production of 20,000 pounds of milk last year.

Miller also took the Guernsey breed championship with a four-year-old, he had little competition in capturing the Ayrshire and Brown Swiss titles

Miller said an outstanding Jersey died recently stomping his hopes for a clean sweep Ken Findley had the champion Jersey.

Ira D. Welk, Quarryville RD3, displays the grand champion Holstein at the Lampeter Fair Thursday. The animal was second at Quarryville last week. The animal, Ink Spot, is a five year old which produced 20,000 pounds of milk last year.

Asked why it is that he has some good animals in nearly every breed, Miller explained that he doesn't buy dairy cows by breed, but looks for a good cow no matter what the breed

His attitude contrasts sharply with most of the leading dairymen in this area, who stick strictly with one breed, or even with one or two family lines within the breed

In competition leading to the Holstein championship, the Miller-Welk cow was top aged cow, the Troop Holstein was second aged cow and Richard Hess had the third aged cow.

Other results in Holstein competition included:

Four-year-olds — Robbie Hess, first, Susan Frey, second, and Richard Hess, third

Three-year-olds—Sandra Frey, Donna Hess and Marvin Miller

Two-year-olds — Susan Frey, Richard Hess and Bruce Landis.

Senior yearling freshened — Jay Landis, junior champion, Debbie Hess, second, and Carl Troop, third.

Senior yearling — Jay Landis, John Kreider, and Sandra Frey

Junior yearling—Ricky Hess, Jay Landis and Brenda Herr; senior calf—Bill Landis, Martin Harnish and Jason Miller; intermediate calf — Susan Frey, Bruce Landis and Connie Kreider; junior calf—Bill Landis and Jack Hess.

Grand champion bull, junior champion bull, and junior yearling bull — —Jay Landis; junior bull calf — —Ronald Leaman.

In Guernsey competition, Miller's breed champion was the top four-year-old and Robert Rohrer had the breed reserve with the best three-year-old.

Other Guernsey competition results included:

Aged cow—Cindy Breneman, Art Breneman and Ernest Wolfe; Four-year-olds — Robert Rohrer, second, and Romella Farms, third.

Three-year-olds — Robert Rohrer, second, and Romella Farms, third.

Two - year - olds — Romella Farms, Art Breneman and Don Breneman.

Senior yearling and junior yearling—Don Breneman; junior champion and junior calf — Ernest Wolfe, first; junior calf —John Miller, second.

No Tillage is nothing without a good winter cover crop.

Establishing a vigorous winter cover crop each fall is a key factor in turning out top yields in a no tillage program. This is true even if last year's crop was planted in a perennial sod. A mulch lasts only one season, so a freshly killed cover is necessary each spring

The heavier the mulch, the more moisture it will trap for roots to tap next summer. It'll also keep soil erosion and surface evaporation of moisture at a minimum. There are four things to look for when choosing a winter cover crop: (1) Ease of establishment, (2) Winter hardiness, (3) Ease of killing with a herbicide, (4) Persistence of dead mulch. (Check with your seed supplier or soil conservation service for information on cover crops recommended for your area.)

Once your cover crop is established, keep in mind that it doesn't pay to graze or harvest it for hay or silage. Stubble left after harvest won't provide enough protective mulch. In one university test, for example, corn planted into a vigorous sod yielded 47% more than corn planted into stubble

Why are we telling you all this? Because we want you to know everything about no tillage farming And that's why we also want you to use the best product you can to give quick kill and fast knockdown of any cover crop

That's ORTHO PARAQUAT. Proven to be the best herbicide developed for No Tillage Farming.

Frey Cow 2nd at Pa. Black & White

An outstanding Lancaster County Holstein cow took second highest honors at the Pennsylvania Black and White Show at Harrisburg Tuesday

Alnat Ivanhoe Ginger, owned by J Mowery Frey Jr., Fultonway Farm 401 Beaver Valley Pike. Lancaster was reserve grand champion

The animal received the honor in competition with 385 top Holsteins from Pennsylvania one of the leading Holstein states in the nation and several other states

Alnat Ivanhoe Ginger recently classified Excellent 93 and last year as a seven old produced 25 846 pounds of milk and 984 pounds of butterfat

This year, Frey said the animal is averaging 96 pounds of milk per day through the first five months of milking

The cow on the right in this large aged cow class at the Pennsylvania Black and White Show Tuesday is Alnat Ivanhoe Ginger, the outstanding Holstein of J. Mowery Frey Jr., Lancaster. The Frey animal won the class and went on to become reserve grand champion in competition with 385 top cows from several states.

Earl Stauffer's Duroc Best Hog at Ephrata

Earl Stauffer had the champion hog at the Ephrata Fair Thursday night

Linford Weaver took reserve champion honors

Both animals were Durocs Stauffer's weighing 233 pounds and Weaver's 215 pounds

Stauffer was also named champion showman

Other top honors by breed were given as follows

Berkshires — Linford Weaver with a 222 pound champion and Donald Bollinger, reserve with a 190 pound pig

Chester White — Michael Leininger, champion at 199 pounds and Philip Leininger reserve with a 240 pound animal

Hampshire — Eugene Bollinger champion at 220 pounds, and Glen Martin, reserve at 223 pounds

Black Poland China — Marlin Bollinger, first with a 218 pound pig and Michael Leininger, with a 210 pounder

Spotted Poland — Jeff Pfautz champion and reserve with animals of 235 and 207 pounds respectively

Yorkshire — Eugene Bollinger first and second with 212 and 233 pound pigs

Landrace — Eugene Nolt both champion and reserve at 218 and 240 pounds

Crossbred — Jay Zimmerman champion with a 185-pound hog and Eugene Bollinger with a 180 pound pig

J Mowery Frey Jr , Fultonway Farm, 401 Beaver Valley Pike, Lancaster, relaxes after a long day in the ring as he accepts reserve grand championship honors at the Pennsylvania Black and White Show at Harrisburg Tuesday along with his prize cow, Alnat Ivanhoe Ginger. Presenting the trophy and ribbon is Kathy Seipt, Easton, a show official.

This Duroc sow and litter is the breeding stock of Frank Ruoss and indicative of why the Ruoss' swept most of the Duroc awards at the Lampeter Fair this week

Clyde Brubakers Win Lampeter Sheep Honors

The Clyde Brubaker family Lancaster swept most of the major sheep categories at the Lampeter Fair this week

The Brubakers had the champion ram lamb and champion ewe lamb under one year. Champion and reserve ewe honors went to members of the Clyde Brubaker family

Entries were light in the sheep competition, however

Reserve ram lamb and ewe under two years old honors went to Randy Walker

The show judge was Mac Spaulding of New Jersey.

Phoenixville RD2 Ewe Is 4-H Show Champion

Holly Scheib daughter of Mr and Mrs Clyde Scheib, Phoenixville RD2 exhibited the champion ewe at the Chester Delaware Counties 4-H Sheep Show recently at the Rose Tree Hunt Club Media

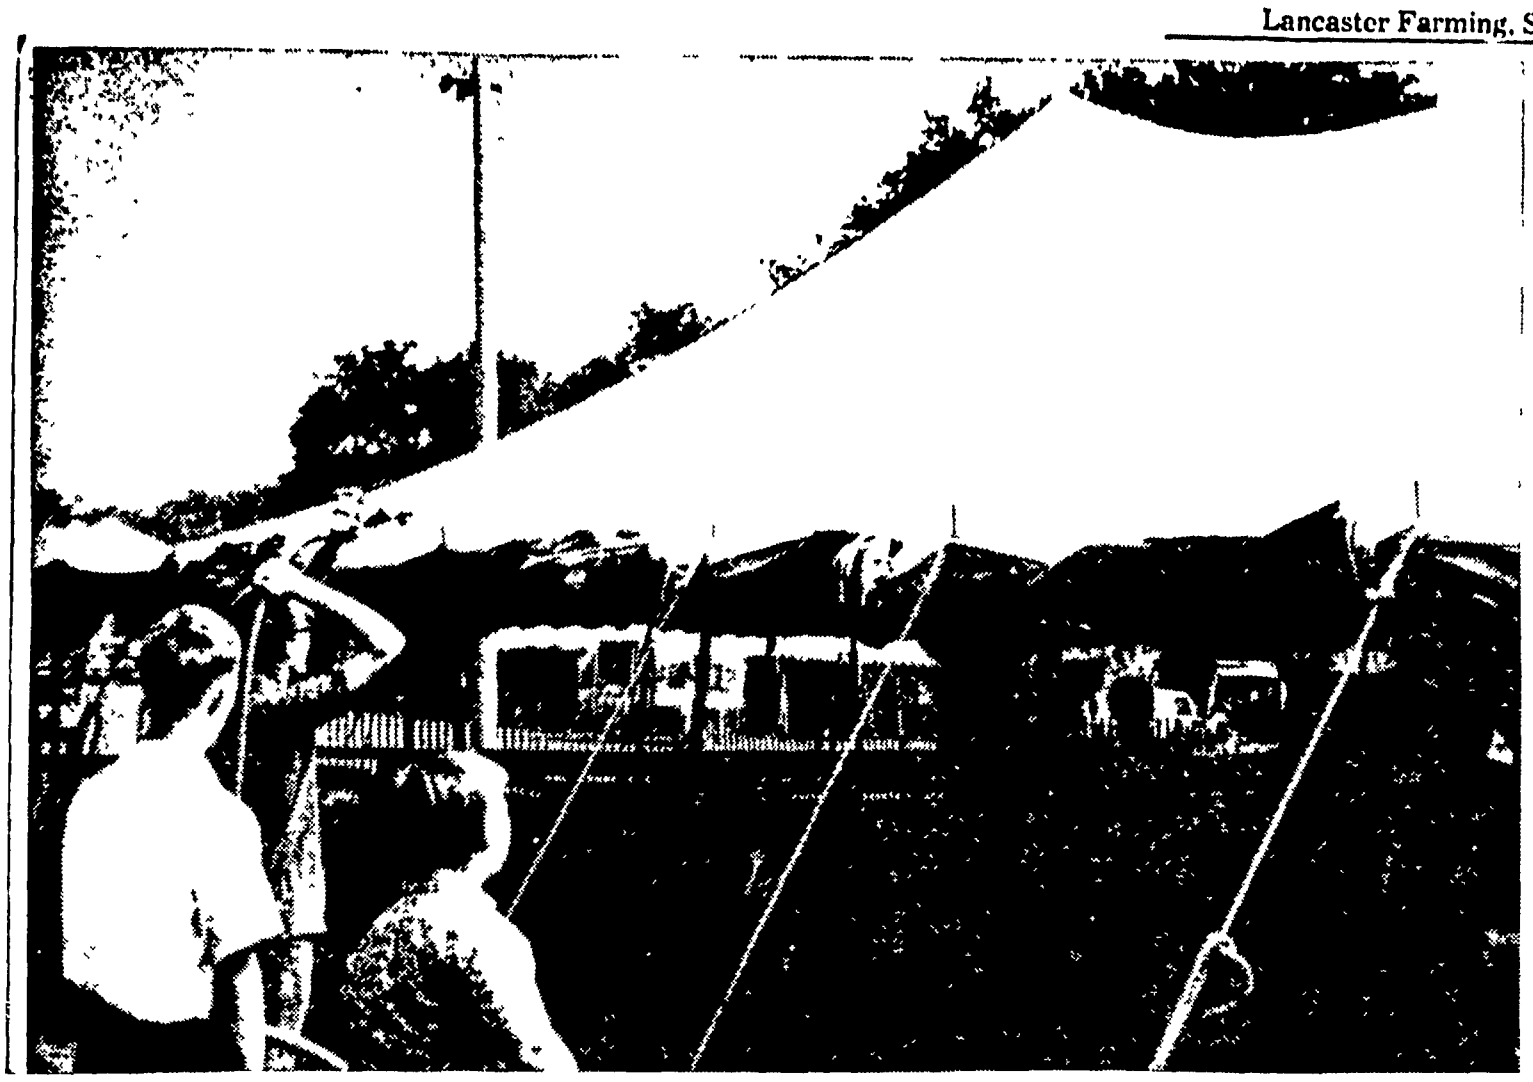
Reserve champion ewe was shown by Joan Liesau daughter of Mr and Mrs Eugene Liesau Spring City RD1

Joan Liesau also placed first in the junior division of fitting and showmanship contest Holly Scheib placed second In this contest members were judged on their ability to show a sheep which they have trained and groomed for show

In addition to the breeding ewe classes, and the fitting and showmanship classes, there was also market lamb competition

Judge for the event was David Kantner Associate County Agricultural Agent in Bucks County

Jay Landis, Lancaster RD6, shows off his senior bull calf winner at the Pennsylvania Black and White Show Tuesday The animal, named PaTaJa True Type Patris, was an "easy winner" in competition with eight other animals, according to the judge. Elam Bollinger, Manheim RD1, had the reserve animal in the junior bull calf competition.



At the Ephrata and Lampeter fairs this week, the talk, especially during the days, was never far away from the weather and the record and near-record temperatures. At Lampeter, the fire truck was borrowed Wednesday to hose down the swine tent and create a cooling draft inside after three hogs died from the heat At Ephrata, the hog show that had been scheduled in the early afternoon Thursday was postponed till late evening to spare the hogs. But the show went on, despite some extra care and a few changes in the schedule

Twin Valley FFA

The second meeting of the Twin Valley FFA was held Tuesday in the Vocational Agriculture classroom at Twin Valley High School with 16 members present

Frank Stoltzfus moved that a committee of three be appointed by the president Fred Mast, to look into selling fresh Florida oranges this winter The motion was seconded by Jerry Jackson The committee consisted of Paul Oldham, Jerry Jackson, and Bob McGowan

McGowan moved that the program of activities for the 1970-71 school year be accepted The motion was seconded by Frank Stoltzfus and passed

Jerry Jackson moved that the Chapter treasury pay for officers meals at the Leadership Training Conference which is to be held at Conrad Wiser High School October 6 The motion was seconded and passed

The next meeting will be held Monday, October 5 at 7 30 p m in the Vocational Agriculture classroom.

Richard Kurtz
Chapter Reporter

Elizabethtown FFA Wins

The Elizabethtown FFA Chapter received a plaque for winning the tug of war contest against seven other Lancaster County FFA chapters at Lampeter Fair this week

Glenn Livengood Enters Best Hog at Lampeter

Glenn Livengood had the grand championship individual hog entry at the Lampeter Fair this week.

The animal is a 220 pound Yorkshire cross barrow Livengood is the son of Mr and Mrs Ira Livengood, 1906 Pioneer Road, Lancaster.

Clair Witwer was owner of the reserve barrow.

Witwer also had the champion pen of-two as well as the top hog in the heavyweight class Livengood was second

John Shank had the top medium weight pen of-two

In pen of-four, Earl Livengood had the champion pen, as well as the top heavyweight pen and the first mediumweight pen

Glenn Livengood was second in heavyweight pen-of-four and had the FFA champion in that division Clair Witwer was first in lightweight pen of four and third in heavyweight

Results in swine breed competition at Lampeter included the following

Durocs — (All breeding stock) Frank Ruoss, first, and Dorothy Ruoss, second, young boar; Frank Ruoss, first, Dorothy Ruoss second, and W F Ruoss, third senior gilts, Frank Ruoss, first, W F Ruoss, second, and Dorothy Ruoss, third, junior spring gilts Frank Ruoss, first, and Ken Fox, second, sow and litter Dorothy Ruoss, first and champion sow, Frank Ruoss second and Ken Fox, third, aged sow

Landrace — Ken Findley, first, and Mike Smith, second, senior gilt

Yorkshire — Ken Brandt, first, junior spring gilts

Spotted Sow — Stewart Grimm, first, sow with litter

The judge was Mac Spaulding of New Jersey.

Glenn Livengood, son of Mr. and Mrs Ira Livengood, 1906 Pioneer Road, Lancaster, displays his grand championship hog at the Lampeter Fair this week. The animal is a 220-pound Yorkshire cross barrow.

This 215 pound cross-bred hog was judged the first place hog on foot in the Lancaster County Swine Producer's carcass competition at the Lampeter Fair. This animal and several others will be slaughtered Monday for the second phase of the contest, actual judging of the dressed animal. The on foot winner here is owned by Dutch Valley Farm, Manheim RD3. The animal is the off-spring of a Yorkshire-Duroc sow and a Hampshire boar.

Florists or their customers may be interested in obtaining a new Penn State extension service bulletin which covers all phases of landscaping, including landscape design, preparation of a plan, plant materials, planting and maintenance

The booklet was written by Dr Craig S Oliver, Ornamental Horticulture Extension Specialist

The publication is available from the Agricultural Mailing Room, 110 Service Building, University Park, Pa 16802 The cost is $2, checks should be made payble to The Pennsylvania State University.

Lampeter Baby Beef Winners

Miss Janice Wenger, daughter of Mr and Mrs Lester Wenger, Rockville Road, Lancaster, had the grand championship animal in the West Lampeter Fair Baby Beef Show Wednesday night

The winning animal was her Angus named Toby which beat out Hereford Shorthorn and Charolais entries to the title

It was the first win in competition by Miss Wenger who is a member of the 4-H Baby Beef Club

Reserve championship honors was Gary Brubaker of Running Pump Road Lancaster whose Hereford was named best of breed over 18 other entries

Named the best Shorthorn was an entry by Nancy Herr of Penn Grant Road Lancaster who beat the other animals

The top Charolais and only one entered was a large calf owned by Susan Herr, also of Penn Grant Road

There were 34 animals entered in the contest, which was judged under lights Judge was Connie Grove of Chester County

Other winners in the contest, by breed were

Angus — Elain Herr, Penn Grant Road Lancaster, second Glen Brubaker, Running Pump Road third and Judy Wenger, Rockville Road fourth

Hereford — Karen Harnish Lancaster RD6 second Randy Lapp Millrock Road Lancaster third and Cheryl Brubaker, Rohrerstown Road, Lancaster fourth.

Shorthorn — Donna Hess Strasburg RD1 second Robert Hess Mountville third and Cindy Hess Strasburg RD1 fourth

Miss Judy Wenger poses with the grand champion Angus steer shown by her sister Janice at the West Lampeter Fair Wednesday. The girls are the daughters of Mr. and Mrs. Lester Wenger, Rockville Road, Lancaster.

TM's Ortho, Chevron Design, Unipel - Reg. U.S. Pat. Off.

We've removed the fear of nitrogen loss from fall fertilization!

Start an Ortho "Green 'n Easy" program this fall.

Been holding back on fall plowdown of N-P-K because you were afraid of nitrogen loss? You've just lost your last excuse!

If your corn shows nitrogen deficiency next spring, sidedressing is on us!

We say that with "Green 'n Easy" there will not be enough nitrogen loss to effect your crops next spring. And we're so confident that we'll make up the loss if any shows. Come see us soon and learn if your fields qualify for an Ortho "Green 'n Easy" Fertilizer Program. You've got nothing to be afraid of now.

John Miller (right), Manheim Central FFA member, admires his new Guernsey calf received from the Jerome Rhodes, Quarryville, herd this week at the Lampeter Fair under the Dairy Breeders' Calf Award program. Looking on is Robert Breneman, Guernsey committee member

Two FFA Members Get Dairy Calves

Two Lancaster County FFA members were given dairy calves at the Lampeter Fair this week

Marlin Smoker son of Mr and Mrs Earl Smoker Stevens RD1 received a Holstein calf and John Miller son of Mr and Mrs Arlington Miller Elm received a Guernsey calf

Smoker is a member of the Cloister FFA Chapter Ephrata and Miller is a member of the Manheim Central FFA Chapter Manheim

Mr and Mrs Albert Frey Manheim RD2 donated the Holstein and Jerome Rhoades Quarryville donated the Guernsey

Marlin Smoker (kneeling), Cloister FFA Chapter member is shown receiving his Holstein calf this week at the Lampeter Fair under the Dairy Breeders Calf Award program Looking on are Robert Book (left) Holstein committee chairman, Leola and Mr and Mrs Albert Frey, Manheim RD2 donors

Smoker is a sophomore at Ephrata High School and a member of the Cloister FFA Chapter He recently went to Springfield Mass to the Eastern States Exposition as a dairy products judge Marlin earned the trip by placing sixth in dairy products judging at the State FFA Convention

Holstein committee members making the selection were Robert Book, chairman, Leola, Melvin Eby, Paradise, and Donald Hershey, Manheim

To be eligible for his award Miller submitted his application through his FFA Chapter to the Guernsey committee His written application was reviewed followed by an interview by the committee and selection was made on this basis

John is a sophomore at Manheim Central He has shown hogs at the Lancaster County Swine show where his Hampshire placed sixth showed his dairy calf at the Southeastern FFA Dairy show where his calf placed third and participated as a dairy judge during FFA activities week at Penn State

10-Year-Old Wins Big In Ephrata Sheep Show

Elizabeth Herr, 10 years old, took most of the top honors at Ephrata Fair sheep Show Thursday

Her Cheviots were grand champion, reserve grand champion and best pen of three

To top it off, she was named champion fitter and reserve champion showman

Young Elizabeth is the daughter of Mr and Mrs Robert D Herr Narvon RD2 Her father is a voag teacher at New Holland and a breeder and promoter of Dorsets

Thursday was the first time the girl had ever shown sheep in competition and this is her first year in the 4-H Baby Beef and Lamb Club

Dale Sensenig, Ephrata, picked up champion showman honors

The mediumweight pen-of-three was won by Marty Good Reinholds also reserve pen-of-three

Miss Herr was assisted with showing her Cheviots by her younger sister, Barbara, and younger brother, Christian

Elizabeth said she likes sheep and plans to keep on showing them She plans to enter the Livestock Exhibition and the Farm Show when they come up.

A sixth grader at Blue Ball Elementary School, Elizabeth is an avid reader. She also collects rocks.

Other competitors placing top animals from among the 44 competing were Marlin Bollinger, Denver RD2, and Gene Bollinger, Denver RD2, lightweight.

Marty Good, Reinholds RD1, third, mediumweight.

Judge for the event was Henry Gruber, A&B Packing Co., Allentown

Elizabeth Herr, 10, is assisted by her eight-year-old brother Christian in displaying her grand champion and reserve grand champion sheep at the Ephrata Fair Thursday The animals are Cheviots.

New Holland 4-H

Diane Herr
News Reporter

The New Holland 4-H Community club held its monthly meeting at the home of Mary Lou Fisher on September 21. The meeting was opened by President Elvin Lapp The members gave their progress reports

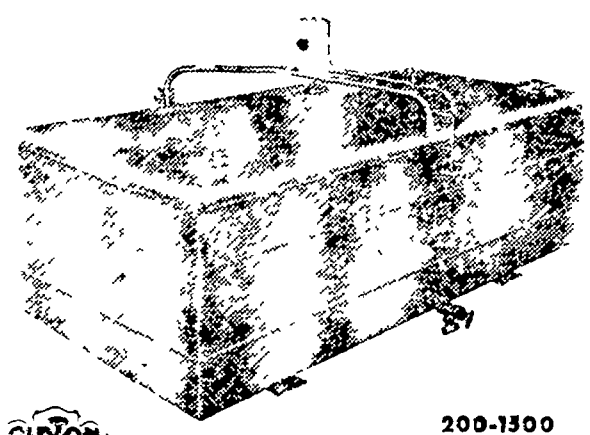
A motion was then made to have a Halloween party on October 23 Mrs Mary Martin said it could be held at her house A food and recreation committee was appointed

In the leaders reports, members were instructed on how to prepare projects for the New Holland Fair and also when to bring them

GIRTON DIPLOMAT FARM COOLING TANKS

"proven performers"

- ONE-PIECE COVER POSITIVE SEAL, COUNTER-BALANCED
- FOAM TYPE INSULATION
- LARGEST COLD PLATE IN THE INDUSTR
- LOW POURING HEIGHT



200-1300 GAL.

THE DIPLOMAT

The Diplomat is the latest in a long series of top quality . . . high performance farm tanks from Girton.

This new tank offers the lowest pouring height . . . easiest cleaning . . . new one-piece, positive seal, counter-balanced cover, and exclusive front outlet. A patented refrigeration system gives the Diplomat more cooling plate per gallon than any other tank Recent tests show a cooling rate of 8.004 per 100 lbs. of milk, without freezing.

See these and many other features at your Girton Dealer today.

Dairy Extension Specialist Recommends:

Put High-Moisture Corn in Silo

By Richard S. Adams
Dairy Extension Specialist
Penn State University

Ensiling high-moisture corn can provide an economical and convenient method of storing corn grain that is to be fed to livestock on a farm.

This method of storage makes artificial drying unnecessary, reduces risks from mold and blight problems, and enables heavy purchase of grain at the depressed prices often present at harvest time.

Most research indicates that the feeding value of high-moisture corn for dairy cows usually is similar to that for dry grain, when fed on a equal dry matter basis. For fattening cattle, high-moisture corn often may have about 10 per cent greater feeding value on a dry matter basis

Silos to be used for storing high-moisture grain must be reasonably air-tight and adequately reinforced with extra hoops and the like. High-moisture ear corn which has been adequately ground or otherwise prepared will keep well in most upright silos that are in good condition. Well-built and properly used horizontal silos have been used satisfactorily in some cases.

Prepared high-moisture shelled corn requires close management and extremely good silo conditions. It is best to use only gas-tight silos for storage of high-moisture whole shelled corn. Ensiled whole shelled corn should be prepared before being fed to dairy cows.

Suggested moisture ranges for ensiling corn are, as follows: Ear corn at 30-40 per cent moisture for the whole-ear (32 per cent preferred), and shelled corn at a kernel moisture of 25-30 per cent (28 per cent preferred). Dry shelled corn also may be reconstituted to a moisture level of 25 per cent for ensiling purposes.

Corn to be ensiled may be prepared using a burr mill, hammermill, crushers or rollers, and certain types of blowers, field choppers and pickers equipped with recutting screens and other special attachments. Preparation of ear corn before ensiling should be equivalent to that attained by grinding with a ¾ to 1 inch screen.

During warm weather at least 1 ½ to 2 ½ inches of corn should be removed daily to prevent spoilage. Corn removed should be fed within 12 to 24 hours after removal to prevent heating and spoilage. Silo size should be tailored to herd needs.

Generally, ensiled high-moisture corn is extremely palatable to cattle. Too frequently dairymen who lack experience with high-moisture corn will overfeed it and/or fail to adequately balance their ration with sufficient protein and minerals.

Users of high-moisture corn should take advantage of forage testing and professional feed programming. These services are available from Penn State and other sources.

When properly ensiled and fed in a balanced ration, feeding high-moisture corn produces good results, and sometimes may even reduce problems with feed refusals and digestive upsets in high-producing herds.

Feeding a blend of high-moisture corn and a concentrate or supplement is preferred over separate feeding in many situations. Preparing a complete ration at feeding time of high-moisture corn, supplement and forage offers even greater advantages

Introducing . . . . THE B-305

Q: Since the B-300 is performing so well, why introduce a second Leghorn type layer?

A: At Babcock, we are never satisfied with present performance. When you are tops in your field and have an active research department, the challenge is to always make something better We will want to have at least two top-performance white egg layers available at all times This means we are in a position to better serve the needs of poultrymen everywhere.

Karen High Shows Best Beef Animal at Ephrata

Miss Karen High 18 daughter of Mr and Mrs Harvey High Bird ville won the grand championship at the Ephrata Fair Baby Beef Show Thursday night with a heavy weight Angus

The veteran 4 H showman moved up only one place from her good showing at Ephrata last year when she had the reserve grand champion animal, also an Angus

Miss High also was a member of the county 4 H livestock judging team which was first in the state last year

Bill Martin 12 son of Mr and Mrs Leland Martin New Holland RD1 shown in his first year finished second with the reserve grand championship honors with a Hereford Martin's animal was judged best of breed before losing out to the Angus

Other results by breed were

Angus—Nancy Wenger Stevens RD1 breed reserve and first Sheryl Weaver New Holland RD1 second and Shirley Stauffer, Ephrata RD1 third lightweights

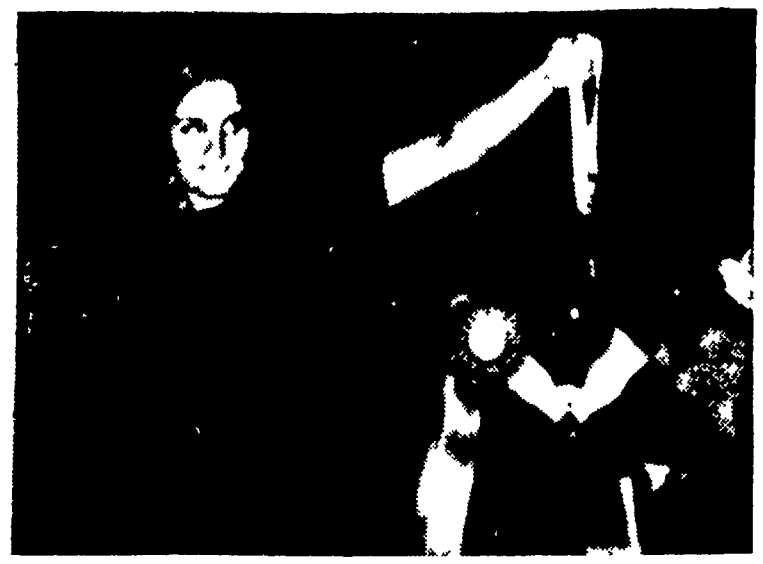
Marvin Nissley, Mount Joy RD1 second and Ann Nissley Mount Joy RD1, third heavyweights

Herefords — Linda Nissley Mount Joy RD1 first Mike Martin New Holland RD1, second and Nancy Yungmger, Marietta RD1 third lightweight

Nancy Martin Narvon RD1, breed reserve and second and Donald Bollinger, Denver RD2, third

Champion showman in the event was Marvin Nissley, a veteran steer handler

Judge was Henry Gruber, of A&B Packing Co, Allentown



Miss Karen High triumphantly displays her grand championship Angus Thursday night at the Ephrata Fair Baby Beef Show.

Bill Martin 12, a first year showman shows off his reserve grand championship Hereford at the Ephrata Fair Thursday night

Grassland FFA

Three members from the Grassland FFA Chapter New Holland recently participated in contests at the Eastern States Exposition a two day convention held in Springfield Mass

Marty Good Reinholds RD1 participated in the Milk Producers Judging contest He received prize money and a ribbon for placing eighth

Dale Weiler Elverson RD1 and Gerald Weaver Blue Ball were contestants in the Small Gas Engines contest As a team effort they placed fourth they also received prize money and a ribbon

To be eligible for these contests they had to be successful at the summer FFA activities Week held at Penn State University

J C Ehrlich Co, Inc has moved to their new location 1278 Loop Road, Lancaster They were formerly at 736 E Chestnut Street, Lancaster

District 10 4-H Horse Show Winners Named

Nine Lancaster County 4-H members were winners at the District 10 4-H Horse and Pony Show at Ludwig's Corner Horse Show Association Grounds last Saturday (September 19)

The top two riders in each class in the competition involving Bucks, Chester Lebanon, Montgomery, Delaware and Lancaster Counties will compete in the State 4-H Horse and Pony Show at the Farm Show Building, Harrisburg, November 13 and 14

To compete in the district contest, the youths first had to win in a county meet

The nine Lancaster County winners are Jeannine Bender, Salunga, pole bending, Robin Fellenbaum, Fruitville Pike Lancaster, pleasure pony driving, Randy Glick Baeville pole bending, Nancy Henkel, Strasburg RD1, hunter seat equitation over jump senior division

Roxanne Jones, Witmer, county team, Kathy Mentzer, Strasburg, yearling class and county team, Jim Watts, Manheim, western riding horse, Nancy Weber, Millersville, saddle seat equitation senior division and English pleasure horse; and Lisa Wendel, Lititz, county team

Chester County Winners

Qualifying for the State Show in two different classes from Chester County are Frances Dunn, Chester Springs, and Pam Taws, Paoli Frances will be competing in hunter seat equitation over jumps, junior division and working hunter ponies, while Pam will be in the yearling and open trail classes

Others qualifying from Chester County are Natalie Smith, Parkesburg, hunter seat equitation, junior division, Loretta Chicarelli, Downingtown, hunter under saddle horses, Kathy Shaw, Downingtown, western pleasure ponies, Stephen Winckelman, Malvern western riding horse contest, and Steve Lester, Uwchland, barrel race

The judge for the English was Donald Sheldon Hyde Park, New York, while Les McCandless, Greenvillage, New Jersey, was the judge for the Western classes

Pa. Corn Crop Forecast Is Unchanged in August

Corn yields in Pennsylvania as of September 1 are forecast at 85 bushels per acre, unchanged from last month's forecast

This would be one bushel higher than last year, but three bushels below the record high yield set in 1967

Total production of corn for grain is estimated at 80,155,000 bushels, five percent above last year's crop and 41 per cent larger than 1968

The crop continues to make rapid progress with most corn (as of Sept 1) in the dough-dent stage and turning Dry weather the first two weeks of August was unfavorable for optimum growth but the presence of soil moisture carried over from July and the arrival of timely rains were a plus for the crop Farmers in the central and southern counties started chopping corn for silage the last week of August

Southern corn leaf blight has been detected in Pennsylvania corn fields by specialists from Penn State University and the State Department of Agriculture Plant Pathologists The infestations appear to be localized at the present time and the blight outlook depends on weather conditions, since fungus growth is correlated with temperature and rainfall

Ag Waste Group Asks For National Program

A tangible, workable plan of action is evolving from the 'Agricultural Waste In An Urban Environment" conference, chairman Richard D. Chumney announced as the four-day meeting at Atlantic City, N.J. came to an end last week.

Delegates called for a national conference and a coordinated national program of abatement of agriculturally-related disposal and utilization problems The key issue, the delegates agreed, is to relate the available resources to the magnitude of the problem and to call for a realignment of the priorities at all levels of private and public concern.

Much of the basis for the proposed program resulted from the thinking of four special interest groups dealing with funding, research, legislation and communications and public relations in connection with agricultural waste and use.

The funding group recommended that money should be obtained from private industry state and federal sources for planning, training and education, demonstration, research and development and implementation through construction of facilities designed to treat or dispose of wastes

An example cited was that the Solid Waste Management Act of 1965 authorized nearly $80 million of which Congress appropriated about $64 million Through 1970 $60 million has been expended, and only $2½ million of this has been spent on agricultural waste projects

(Continued on Page 19)

The Pa. Junior Dairy Show

Young Lancaster County dairy farmers couldn't muster any breed championships in 4-H and FFA competition Monday at the Pennsylvania Junior Dairy Show

But two countians were close, placing second in the 4-H Guernsey and 4-H Jersey competition

Thomas W Aaron, 18, son of Mr and Mrs William J Aaron, Quarryville RD1, won reserve grand and reserve senior champion Jersey honors with "Lynmoores Fashion Gail," a two-year-old heifer

Peter C Witmer, 17, son of Mr and Mrs Raymond F Witmer, Willow Street, took the reserve grand and reserve senior champion Guernsey title with "Penn Del Brilliant Connie " a four-year-old

A 4-H member for six years, Aaron also won master fitter and master showman awards

A 4-H member for eight years Witmer won master showman honors

Next highest placing from Lancaster County was registered by Donna Akers, 12 daughter of Mr and Mrs Curtis Akers Quarryville RD1, with a reserve junior champion 4-H Holstein a junior calf named "Solanco Acres Bonus Pepper

A 4-H member two years, Miss Akers was judged reserve champion fitter in Holstein competition

Only those 4-H and FFA animals which had won blue ribbons in regional competition were eligible for entry in the Junior Dairy Show Lancaster County had 33 entries

Other placings by Lancaster County entries included

Holstein — FFA entries Russell L Kline Ephrata, third and fitting and **Thomas** Bollinger, Ephrata, sixth and showman,

(Continued on Page 24)

Tina Kulp, daughter of Mr and Mrs Harold Kulp, Pottstown, shows off her grand champion 4-H Ayrshire at the Pennsylvania Junior Dairy Show Monday She was also declared reserve champion Ayrshire fitter-showman.

Peter C Witmer, son of Mr and Mrs Raymond F. Witmer, Willow Street, poses with his 4-H reserve grand champion Guernsey, a four-year-old, at the Pa. Junior Dairy Show Monday.

Across the Editor's Desk

The Digest Researches Eggs

"You just never know!" exclaimed Grace Cherry, PENB secretary, after a phone call. "That was Reader's Digest ordering the merchandising slides!"

Reader's Digest Research Department read extensively and maintain background files A reader using a popular weekly poultry journal noticed the recent PENB release on "Eggs Can Be Merchandised Better" which offered a set of slides and a commentary for $5.50.

So Reader's Digest research files now contain a set of those slides, a commentary, and one of the five-page mimeograph summary of the work of Oesterle and Kepner at Purdue. All of this is quite properly indexed under Eggs, Merchandising and Retail Food Merchandising.

A number of industry egg merchandisers and educators have also purchased the material. Among the food retailers who have purchased are Lucky Stores, Allied Supermarkets, Supermarkets General, Red Owl, A&P, IGA, Nash Finch, and First National. Kraft Foods, sales training, has also purchased the material.

"Getting these principles of egg merchandising understood, and then applied at the retail counter, will be a great aid to increasing egg consumption and retail profits," declared Neil Castner, PENB board chairman.

Sulphur Missing?

Farmers and gardeners who thought they had enough to worry about are learning of a new threat to healthy plants — soil that is insufficiently endowed with the element, sulphur.

Recnt work done by The Sulphur Institute in Washington, D C., shows that no less than 25 states, including Pennsylvania, have evidence of sulphur-deficient soil.

Sulphur ranks in importance with nitrogen, phosphorus and potassium as an essential plant nutrient. This important was masked for many years during which sulphur was applied to the soil as an often unrecognized component of fertilizer materials.

Recently, however, there has been a trend toward the use of high-analysis phosphate fertilizers which have no sulphur present in the finished product. The application of these materials without added sulphur often results in a rapid depletion of the soil's native sulphur supply, with adverse effects on the crops grown.

While symptons of sulphur deficiency are not always readily distinguishable, here are some general tips on what to look for: (1) small, spindly plants with short, slender stalks, (2) light green to yellowish-colored young leaves, with even lighter colored veins, and (3) retarded growth rate and a delaying of maturity.

Less severe cases of sulphur deficiency may go completely undetected unless field trails are made to check crop response to sulphur application.

The best corrective measure is to be sure that fertilizer used on crops contains enough sulphur. No additional sulphur is needed in mixed fertilizer made with normal superphosphate. Fertilizers using triple superphosphate, diammonium phosphate, phosphoric acid or other sulphur-free materials, however, require the addition of sulphur which is most readily available in a variety of sulphate forms. Research has shown that the addition of 10 to 30 pounds of sulphur per acre is enough to supply on most soils.

Ag Waste Group Asks For Nat. Program

(Continued from Page 17)

Research and demonstration, the conferees concluded must pay off in "nuisance-free" environments, "least cost" handling and "resource recovery" to nature meaning that useful wastes should be recycled and reused rather than destroyed

The legislative group called for a unification of effort, a defining of legislative need and the development of a legislative program to deal with the growing problems of agricultural waste This effort needs to be accomplished at national and state levels Insofar as state legislation on agricultural waste is concerned, there should be a considerable measure of uniformity among the states.

In the field of communications and public relations it was decided that the time has come for a united front to take direct action to establish an understanding between the country and the city Special emphasis was placed upon the fact that those involved with the problem must tell their own story honestly and effectively

Approximately 250 attended the four-day conference which was one of the first of its kind Twenty-six states, as well as Guam, Puerto Rico and the District of Columbia, were represented

The meeting was sponsored by the New Jersey Animal Waste Disposal Task Force in cooperation with the states of New York, Pennsylvania and Delaware

PP&L Reddy Lite for Dusk-to-Dawn Safety, Security, Convenience

only $4.20 a month*

Including fixture, installation, electricity and full maintenance

Let PP&L's Reddy Lite Service provide your home, farm, business or industry with extra protection and safety outdoors after dark. Reddy Lites can mean safer parking areas, safer nighttime working conditions, better visibility for farm chores, more yard enjoyment. And they'll discourage prowlers, vandals and pesky animals.

The deluxe white mercury vapor lamp, equivalent to the light output of 405 watts of incandescent lighting, will brighten an area approximately 100 feet in diameter. When an installation is made under normal conditions* your cost for fixture, installation, maintenance, bulb replacement and electricity is only $4 20 per month plus applicable Pa. State Sales Tax and tax surcharge.

The lamp is mounted approximately 25 feet above ground on a PP&L pole, or on the customer's own pole or structure, if, upon examination, they prove sound and satisfactory.

Let us tell you more about Reddy Lites. Call PP&L today or complete and mail the coupon below for a free survey of your outdoor lighting needs.

Here are some excellent locations for Reddy Lite services . . .

program your beef cattle for profits!

There is a program that will give your cattle the exact balance between feed and forage for maximum growth and profit. Whether yours is a cow-calf operation, or you're finishing cattle for market, Red Rose's unique new service can take the guesswork out of your feeding operation.

You tell us about your herd. The breed. Average weight. The gain per head you want to achieve. What forage you're feeding and how much. Give us these facts and we'll analyze your herd and tell you how you can obtain the most efficient, profitable operation possible.

Your present feeding program may be the best possible one for your herd. But, if you're not absolutely sure, let us compute it the Red Rose way. This scientifically formulated analysis is free.

WASHINGTON REPORT

Congressman Edwin D. Eshleman

16th District—Pennsylvania

Terrorism is a world problem today Buildings are bombed for no apparent reason Diplomats are kidnapped and murdered by radical revolutionaries We witness piracy in the skies as airplanes are hijacked

The cost of these instances of terror is measured in lives and fear While they are crimes against property and illegal acts under all national and international law, the single most important thing to realize is that they are crimes against civilization. They are savage acts which show no respect at all for human life or the cultural traditions which protect life

Such savagery is usually associated with barbarians The revolutionaries responsible for today's terror are, in fact, the new barbarians.

By adopting aimless destruction and inhuman viciousness as a program, the new barbarians have presented a difficult problem to the world Presently, international law does not seem capable of handling widespread instances of wanton destruction and brutality.

Nations acting alone and together must find ways for dealing with guerrillas and terrorists. The warning is clear. Each unpunished act of savagery encourages a dozen more. If the radical revolutionaries are allowed to triumph enough of the time, we could witness the coming of a dark age — an age of unbridled anarchy or harsh repression.

Here in the United States, those responsible for bombings, murders and other acts of "revolutionary" terrorism must be brought swiftly to justice We should deal with this small group of radicals in such a way as to discourage others from joining in that brand of irresponsibility

Every possible effort must be exerted toward apprehending, prosecuting and punishing those whose record is one of death and destruction.

On the international front the effort should be the same, although the problems are naturally more difficult Justice is harder to determine and bring about when several countries are involved

But perhaps ideas like that of bringing international sanctions to bear against those nations who harbor airplane hijackers should be considered more seriously Actions have to be taken to show the new barbarians that the civilized world means business

For good production next lactation,

FEED PURINA DAIRY CONDITIONER

As a dairyman, you know that good milk production doesn't just happen It's something you plan for by establishing a herd with the genetic potential for good production, then managing and feeding your cows so they'll produce up to their bred-in ability.

Many successful local dairymen also plan for good production with a proven program of dry cow feeding. They need Purina Dairy Conditioner, a research-proven ration to help give dry cows body condition they need for good production after they freshen

Purina Dairy Conditioner is an extra-palatable 12½ percent protein ration It's fortified with vitamins A and D plus extra phosphorus to help guard against milk fever.

Purina Dairy Conditioner is low-cost too, because the amounts you feed depend on your cows' condition and on the quality of the roughages you feed For example, a cow dried off in good condition being fed high-quality roughages would require less Dairy Conditioner than a cow in only fair condition being fed fair quality roughages

Drop in soon and get your free copy of the Purina Dry Cow Program folder. We'll be glad to show you how Purina Dairy Conditioner can help you prepare your dry cows for good production next lactation.

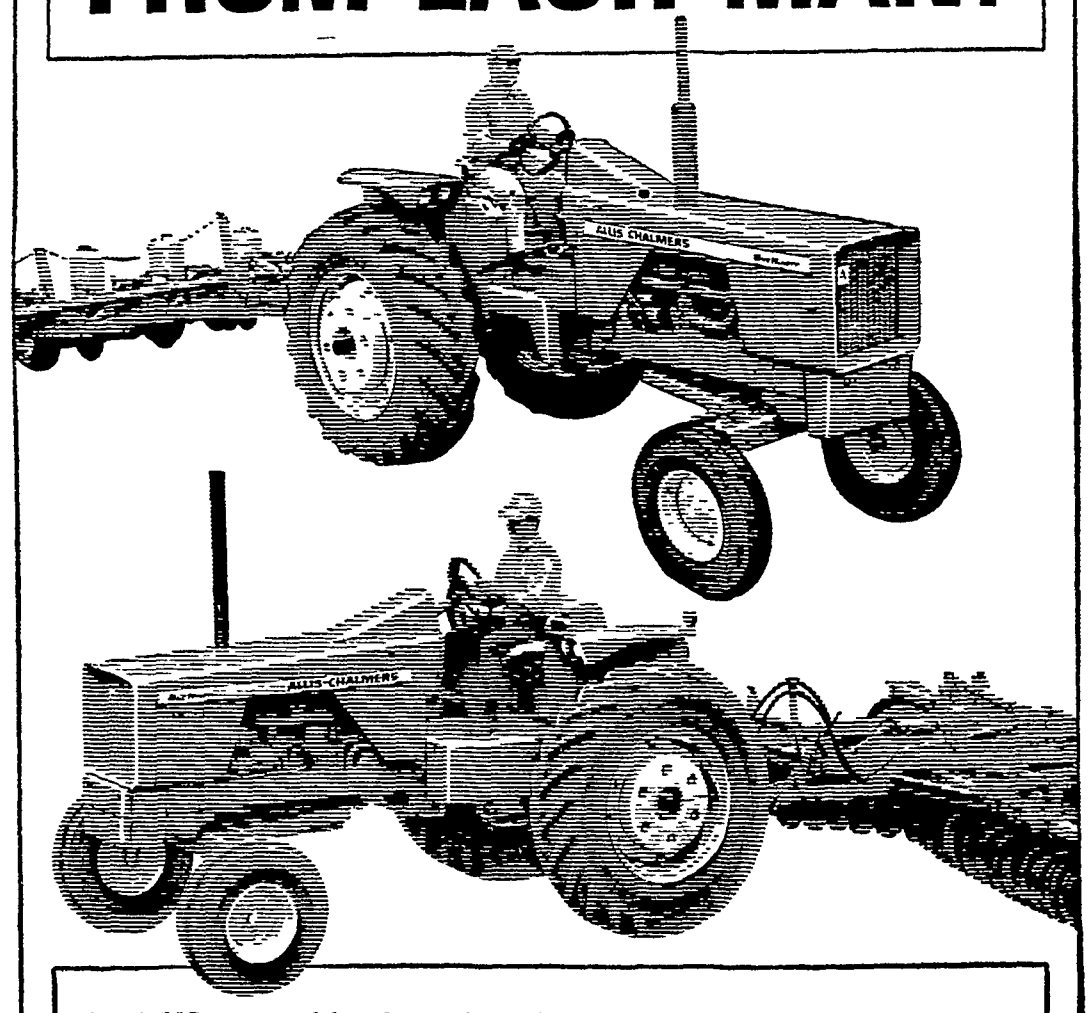
GET MORE FROM EACH MAN!



PUTTING on extra labor during the peak seasons is mighty expensive. Finding manpower at those times is difficult. Makes a lot more sense to get more work from the manpower you have . . . by putting your labor force on a bigger tractor.

That's what we call workpower . . . the real measure of a man's worth . . . whether it's your personal worth or that of a hired man. Allis-Chalmers One-Ninety and One-Ninety XT Series III tractors can give you that extra measure of workpower. And the savings from covering more acres per man hour can add up to bigger profits. So power-up with the Big Orange ones from Allis-Chalmers. Going Orange is Going Great!

Too Much High Moisture Corn May Cause Drop in Butterfat

Extremely high levels of high moisture corn in the ration can cause depressed butterfat tests, says University of Minnesota scientists.

"Farmers feeding a high energy ration for top production should feed about 1 to 1½ pounds of forage per 100 pounds body weight each day to keep the butterfat test up," says dairy researcher D. G. Johnson

He reported his research at the annual meeting of the American Society of Animal Science at the University of Pennsylvania recently.

Johnson and his co-workers fed rations containing three different proportions of corn silage and high moisture corn to 52 Holstein cows in early lactation

The proportions of corn silage to high moisture corn in the experimental rations were 80 20, 67 33, and 54:46. Each ration was fed at 110 per cent of consumption each day and was supplemented with soybean meal, urea, trace mineral salt and dicalcium phosphate. In addition, alfalfa hay was fed at the rate of 6 pounds per cow per day

Milkfat test took a significant drop in the two rations with a higher percentage of high moisture corn The average test was 3 91 for the first groups, 3 44 for the cows that received moderate levels of high moisture corn and 3 0 for the group on the 54.46 ration.

There were no significant differences in milk production, dry matter consumption, solids-nonfat production of milk protein production due to ration differences.

The researchers hope to find suitable complete rations for dairy cattle that can be mechanically fed and still maintain high milk and butterfat production

State PFA President To Speak at Oct. Dinner

John Pitzer, state president of the Pennsylvania Farmers Association, will be the speaker at the annual Lancaster County PFA dinner meeting in October

The meeting is set for 7 p m Friday, October 23 at the Harvest Drive Farm Motel, southwest of Intercourse at Gordonville. A family style dinner will be served Advance reservations can be obtained from any PFA director.

The evening program also includes development of PFA policy

The PFA Women's Auxiliary will hold a luncheon meeting October 13 to plan activities to promote farm safety

Youth Gets Scholarship

William McAllister, 18, of Oxford RD1, a sophomore in the College of Science at Pennsylvania State University, has been named recipient of a $100 Allen L Baker 4-H Scholarship.

The award, presented annually to an outstanding Commonwealth 4-H member, honors the late Allen L Baker, who retired in 1958 from the Cooperative Extension Service staff after serving 38 years as State 4-H leader

William, the son of Mr and Mrs. Ellsworth McAllister, has been a 4 H member eight years. He has completed projects in vegetables, dairy, strawberries, and horse

A leader in local 4-H affairs, he served as president and vice president of the agriculture and horse clubs and was news reporter of the Chester County 4-H Council. He also assisted his local 4-H leaders with club activities and events as a teen leader the past four years.

Farmers Offered Advice On Cutting Blight Loss

Corn producers whose crop has been damaged by Southern Leaf Blight can get advice on how to set their harvesting machines to save the most grain by placing a toll-free telephone call to Massey-Ferguson Inc , in Des Moines, Iowa

All producers are welcome to call, whether they own Massey-Ferguson combines or not

A special telephone line has been installed in the Massey-Ferguson offices so producers can call Mr Winslow toll-free at any time day or night Beginning Monday, September 14, producers living outside Iowa should call 800/247-4940 Iowa producers may call 800/362-1682

From 8 30 a m to 5 p m , central time Monday through Friday, Mr Winslow will personally take all calls and answer producers' questions Calls after 5 p m weekdays and on Saturday and Sunday will be answered with a message tape-recorded by Mr Winslow, giving producers specific information about how their combines should be set for best results in blight-damaged corn

drive safely

WE'VE GROWN ACCUSTOMED TO YOUR FACE

Safety precautions are so simple, it can be a crying shame not to practice them. Keep an eye on the speedometer, the other guy, young kids, bouncing balls. Clean your windshield, every time. Check your tire pressure, every time. Adjust your rear-view mirror, every time. And don't just buy seat belts, *use* them, every time. Smart drivers always sit tight, behind a seat belt. Quite a few of them are sitting pretty, too, in a newer, safer car financed by a low-cost Commonwealth auto loan. Stop in at the closest of our 29 offices. As always, we're Happy to Help You.

FOR THE FARM WIFE AND FAMILY

THE EVER POPULAR ONE-DISH MEAL

by Mrs. Richard C. Spence

Usually when you think of a one-dish meal, you have a casserole in mind Well, it could be a pie!

This Vegetable Custard Pie has everything — color, appetite appeal, and interesting texture and variety Cut it into generous wedges and serve with hot rolls and a crisp green salad for the main dish at any family meal

There's plenty of good milk protein for your growing family in this delicious baked custard A piquant blend of crisp vegetables and seasonings set off perfectly the good taste of the basic custard Chopped onion and green pepper provide a dash of spice, and to offset their lively flavor, luscious mushrooms and finely shredded carrots are added This pie is a natural for meatless family meals and for company at luncheon or Sunday night supper as well

VEGETABLE CUSTARD PIE

- 1 unbaked pie shell, 9 inch
- 2 tablespoons butter
- ½ cup chopped onion
- 2 tablespoons chopped green pepper
- 2 eggs, slightly beaten
- 1 cup milk
- ¾ teaspoon salt
- ⅛ teaspoon pepper
- 2 cans (4 ounces each) sliced mushrooms, drained
- 1 cup finely shredded carrots

In a small skillet melt butter, saute onion and green pepper until onion is transparent Blend together eggs, milk, salt and pepper. Add mushrooms, carrots, onion and green pepper Pour into pie shell; bake in a preheated 350 degree oven 45 50 minutes or until a knife inserted near center comes out clean Allow to stand 5 minutes before serving. Makes 6 servings

For a salad type one-dish meal you might try this Cheese-Tomato Tart, another type of pastry dish

CHEESE-TOMATO TART

PASTRY:

- 1½ cups sifted regular all-purpose flour
- ½ teaspoon salt
- ¼ teaspoon dry mustard
- 6 tablespoons (¾ stick) butter
- 1 cup (4 ounces) shredded Cheddar cheese
- 1 egg yolk
- 2 tablespoons water

SALAD FILLING:

- ½ cup dairy sour cream
- 2 tablespoons chopped green pepper
- 1 teaspoon minced onion
- ¼ teaspoon salt
- Dash of pepper
- ½ pound Swiss cheese, cut into ¼-inch cubes
- ¼ cup crumbled Blue Cheese
- 2 cups cubed fresh tomatoes, drained

Sift together flour, salt and mustard; cut in butter until mixture is size of small peas Toss in Cheddar cheese Combine egg yolk with water, with a fork, blend into flour mixture until moistened and can be formed into a ball Roll pastry out on waxed paper and invert into 9-inch pie plate Remove paper and press pastry into plate, flute edge, prick bottom and sides and chill (Remaining pastry can be rolled out, cut into stripes and baked 10 minutes for cheese straws, if desired) Bake pie shell in preheated 400 degree oven 20 minutes Cool.

For Salad Filling blend together sour cream, green pepper, onion, salt and pepper Stir in Swiss and Blue cheeses, chill Just before serving, fold in tomatoes Turn into pastry and garnish with additional diced tomato, if desired Makes 6 servings

TUNA CASHEW CASSEROLE

- 2 tablespoons butter or margarine
- 2 tablespoons finely minced onion
- 2 tablespoons flour
- 2 cups milk
- 2½ tablespoons soy sauce
- ½ teaspoon garlic powder
- Few drops hot sauce
- 1 teaspoon freshly grated lemon peel
- 1½ tablespoons freshly squeezed lemon juice
- 2 cans (7 ounces each) tuna, drained and flaked
- ¾ cup salted cashews
- 1 cup finely chopped celery
- 1 can (5½ ounces) chow-mein noodles

Melt butter in sauce, add onion, brown lightly Add flour, stirring until smooth, gradually blend in milk Bring to a boil, stirring constantly; boil 2 to 3 minutes Add remaining ingredients, except chow-mein noodles. Pour into lightly buttered 2 quart casserole Bake, uncovered, at 375 degrees for 20 to 25 minutes or until bubbly Serve topped with crisp chow-mein noodles. Makes 6 servings.

EGG 'N CHEESE CASSEROLE

- 6-8 hard-cooked eggs, coarsely chopped
- ¾ cup finely chopped celery
- ⅓ cup chopped pecans
- 2 tablespoons finely chopped parsley
- 1 teaspoon onion, minced
- ½ teaspoon salt
- ¼ teaspoon pepper
- ¾ cup mayonnaise
- 1 cup grated American cheese
- ¾ cup crushed potato chips

Combine all ingredients except cheese and potato chips; toss lightly Turn into 4 individual casseroles or a 1½ quart baking dish, sprinkle with cheese and potato chips. Bake uncovered for 25 minutes in a 375 degree oven Makes 4 servings.

SWISS HAM AND NOODLES

- 2 tablespoons butter
- ½ cup chopped onion
- ½ cup chopped green pepper
- 1 can (10½ ounces) condensed cream of mushroom soup
- 1 cup dairy sour cream
- 1 package (8 ounces) medium noodles, cooked and drained
- 2 cups (8 ounces) shredded Swiss cheese
- 2 cups cubed cooked ham (about ¾ pound)

In a 1-quart saucepan melt butter, saute onion and green pepper Remove from heat; stir in mushroom soup and sour cream In a buttered 2-quart casserole layer ⅓ of the noodles, ⅓ of the Swiss cheese, ⅓ of the ham and ½ the mushroom sauce. Repeat layers, ending with final ⅓ layer of noodles, cheese and ham. Bake in a preheated 350 degree oven 30-45 minutes or

Farm Women Societies

Society 1

Mrs. Ruth Orvis, occupational therapist at the Chester County Home For the Aged, was the guest speaker at the Society of Farm Women 1 meeting at the home of Mrs. George Zahn, Chester, last Saturday.

Devotions were presented by Mrs. Roy Bollinger and Mrs. Roy Brubaker served as song leader.

During the business meeting, conducted by Mrs. Scott Garman, president, the society voted to donate $50 to Mental Health and $10 to the United Fund Campaign.

A report of the executive board meeting and county family picnic held on August 5 was given by Mrs. Zahn. Mrs. Roy Brubaker reported on the recent bake sale.

Mrs. Garman announced the following schedule of meetings: October 13 from 9 a.m. to 2 p.m. sewing at the Lancaster General Hospital: November 7 — County Convention luncheon meeting at the Farm and Home Center; and Apple Butter Making at the Landis Valley Museum on October 3.

Evelyn Ay Sempier will be the guest speaker at the County Convention and the Bell Ringers from the Martin Mylin School will entertain Tickets for this affair may be secured from Mrs Garman.

Women from the local society who will participate in the Harvest Days at Landis Valley include: Mrs. Martin Hess, Miss Rachel Bollinger, Mrs. Martin Moore, Mrs. Roy Brubaker, Miss Mildred Shreiner, Mrs. Willis Bucher, Mrs. Daniel Brubaker, Mrs. Henry Shreiner and Mrs. Garman.

The next Society meeting will be held at the home of Mrs. Franklin Weber, Lititz RD2. Mrs. Elmer Hershey will be the co-hostess. Miss Rachel Bollinger will present the devotions.

Society 2

A donation was made to the United Campaign by Society of Farm Women 2 at a meeting held in Mt. Gretna Hostesses were Mrs Rufus Waltz and Mrs Fred Hahn Mrs Anna Cape-

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

Shop October Plentifuls

What's your favorite apple? Red Delicious, McIntosh, a tart Northern Spy? You can be the judge because there is a large a hardy fall dish.

THOMAS

For dessert you can depend on the old favorite — apple pie, or apple cobbler, or even spiced apples. You can try your hand at making mulled cider when the frost is on the pumpkin this fall, or you might try apple-cranberry punch for the football crowd

Whatever your taste buds thrive on you can satisfy the whole family with an apple-assortment of apples at retail markets now, and more coming in Apples head USDA's Plentiful list for October

An apple makes a good low-calorie snack (only 70 calories if it's medium size) or you can use apples in your main course — perhaps Mincemeat apple filled peaches which provides recipe Fresh apple production forecast for the 1970 harvest is the second largest in 30 years

On the plentiful list for October in addition to applesauce and apple juice will be pork, broiler-fryers, dry beans, canned peaches, canned salmon onions, eggs, potatoes, and dried prunes

October, the month of crisp autumn days, thoughts of Halloween and pumpkins, provides the perfect setting for interesting menus with succulent dishes Use the USDA daily food guide and plan meals around the "Basic Four" — milk, vegetable-fruit, meat and bread-cereal groups

Mincemeat-apple filled peaches (8 servings). Use 1 cup finely chopped apples, ½ cup mincemeat, ½ cup miniature marshmallow, 8 canned peach halves, drained, and peach syrup as needed

Mix apples, mincemeat and marshmallows. Place peaches in baking dish and fill centers with apple mixture Pour a few tablespoons of peach syrup into bottom of dish. Bake at 375° F. for about 20 minutes, until

SPECIAL ANNOUNCEMENT

We are now a Franchised

HOT POINT DEALER

Drop-in Range Has A Built-In Appearance

Drop-in range is an obvious solution for kitchen remodeling projects where space is tight.

A bright new idea for kitchen modernization is this 30-inch electric self-clean range from Hotpoint which drops into a counter opening to provide a built-in appearance

The stylish, no-chip brushed chrome cooktop of this range, Model RF756, is as easy to keep clean as its extra-wide oven with patterned window door. Hotpoint automatic oven cleaning is a simple four-step procedure: lift the window shield, latch the door, set the solid-state oven control to "clean," and set the oven timer to the desired cleaning time.

A "clean" light glows to indicate when the range is in the clean cycle, and a "lock" light warns the homemaker that the oven door is latched shut and cannot be opened until the oven has cooled to cooking temperature

Other convenience features of this range not found on older models are two high-speed 2700-watt surface units which can boil water in seconds, infinite-heat surface unit controls, a timed appliance outlet, oven timing clock, and removable trim rings and reflector pans.

WE'RE IN A RACE AGAINST TIME AND RISING COSTS

To meet the constantly rising electric power needs of Central Eastern Pennsylvania, we're building at a record pace New power plants, lines and substations are being added faster than at any other time in our history. It's a race against time. By 1975 we will have more than twice the generating capacity we have available at this very moment.

But between now and then, there are some pretty knotty problems Not the least of these is the problem of financing this growth. This big expansion effort is going to cost a lot of money—over one billion dollars.

Most of this money must be raised through the sale of stocks and bonds—and, unfortunately, during a period when interest rates are the highest ever. These burgeoning money costs are on top of record high prices we are paying for the equipment, materials and manpower needed to build the new facilities.

But we have no choice. **We can't put off our** building program until more favorable times. We've pulled out all the **stops on construction.** At the same time, we've **cut internal costs to** the bone, deferred expenses **where possible** and instituted economies **at every turn.**

Unless inflation, **rising money costs and** other cost pressures ease, **we will win the race** against time but lose **the race against rising** costs—making necessary **further adjustments** in the prices charged **for electric service.**

Her Brother's Keeper!

Barbara Doefler, 18, Washington County's dairy princess at the Pennsylvania All American Dairy Show, is the kind of sister any brother would like to have.

Before leaving for Okinawa and Vietnam nearly three years ago, her brother Jack a U S airman, confided to Barbara that he would like to be a dairy farmer when he finished his overseas hitch

"Breed my Guernsey cow, keep any heifers but sell any bulls" were his parting words as he left for the Orient

Barbara, who lives with her parents, Mr and Mrs John A. Doefler, Eighty-Four, RD1, has done more than that She's even used some of the money she's earned as a dental technician to purchase any likely looking Guernsey heifers she's encountered.

When Airman Doefler returns home and becomes Mr Doefler, hopefully within three weeks, he'll find he now owns a 13-head herd of Guernseys

4-H, Terry Long, Elizabethtown, first, intermediate calf, David E Wilson, Elizabethtown, second, senior yearling, Russell Wilson, Elizabethtown, first two year old

Ayrshire—FFA, Kenneth L Fox, Stevens, first and showman, senior calf Robert W Campbell, Honey Brook RD2, second senior calf, and Earl R Gerhart, Quarryville, first, senior yearling.

Top Chester Co. Winners

Some top winners from Chester County included Tina Marie Kulp, 13, daughter of Mr and Mrs Harold Kulp Pottstown RD1 4-H grand champion and senior champion Ayrshire with a three-year-old Kenaird E Henley III 9 of Cochranville, won the reserve 4-H Ayrshire junior championship with a senior calf

Marla Thomas, 14, daughter of Mr and Mrs George W Thomas West Chester RD4 won the 4-H Jersey junior championship with a dairy heifer She also won a master fitter award

Top Lebanon Co. Winners

Some leading Lebanon County winners were John Moyer, 17, son of Mr and Mrs John Moyer of Lebanon County, FFA Brown Swiss grand champion and senior champion with a two-year-old, meanwhile, a brother, Donald Moyer, 15, had the reserve grand champion and reserve senior champion FFA Brown Swiss.

John Moyer also had the reserve grand champion and reserve senior champion Brown Swiss in the 4-H competition

York County

From York County, George Knight III, 14, son of Mr and Mrs George Knight Jr, Airville, had the reserve grand champion and reserve senior champion 4-H Holstein a seven-year-old

30 Brown Swiss Sold At All-American Show

Thirty animals were sold for an average price of $760 at the Brown Swiss sale at the 7th Pennsylvania All American Dairy Show

The sale was sponsored by the Pennsylvania State Brown Swiss Association

The top price of $1,300 was paid by Select Sires of Columbus Ohio for a bull calf Ebenezer Laddies Merit The animal was consigned by Carl Helsel of Ebenezer Farm Portage Pa The sire was Waveneys Laddie G and the dam Ebenezer Supreme Melody

Two cows brought $1,100 each Buyers from six states were bidding on the animals which represented outstanding blood lines of the Brown Swiss breed, according to Myron Fledderjohann, fieldman of the Brown Swiss Cattle Breeders' Association of America

It was the first Brown Swiss invitational sale to be held in conjunction with the Pennsylvania All-American "We anticipate the sale will become an annual event at which we will offer animals of All-American caliber for bidders," Fledderjohann said

Help Us Serve You

If your organization didn't make our farm calendar this week, it's not because we don't like you or your organization

We may have missed it in the rush Or maybe you forgot to tell us

Either way, we'd like to extend our farm community service to you

To get on the Farm Calendar, remind us by calling 394-3047 or 626-2191 or by writing to Lancaster Farming, 22 E Main St Lititz Pa 17543 And help us serve you better

The Satisfaction That Comes From Doing A Good Job Of Farming

It's a great feeling to know that you are the master of your farmlands . . . that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. By raising the pH from a level below 6.0 to 6.5 or higher, you can expect to harvest as much as 5 more bushels of corn per acre, with similar increases for all other forage and cash crops.

Strength, Performance, Dependability. You've got 'em all with VAN DALE'S NEW TRAVELING BUNK FEEDER.

Van Dale's SCF-1400 is the traveling feeder to put you on the track to faster, more profitable operations. Automatically, it delivers up to 40 tons of silage per hour to bunks on a single chain, continuous "shuttle" service.

Feeder trough chain is No. 67 pintle (12,500 lb. strength) and drive chain is C-550 steel (average top strength of 10,000 lbs.). Interlocking, snap-together galvanized metal components reduce erection time as much as 50%. Suspended or floor mounted, rails are mounted with Van Dale's exclusive clip-on brackets to provide extra-rigid support. Unit adapts to any feeding need in-barn or out-of-doors.

until heated through Makes 6-8 servings

SQUASH-TOMATO-CHEESE CASSEROLE

4 large zucchini or yellow summer squash
1 small onion
2 slices bread
2 cups cooked or canned tomatoes
1 teaspoon salt
1 cup thin strips of cheese
Pepper, as you like

Slice squash. Finely chop onion. Cut bread in small pieces Put tomatoes in greased baking pan; cut up large pieces. Sprinkle onion, bread, salt and pepper over tomatoes. Put squash on top Put cheese over squash Cover and bake at 375 degrees about 45 minutes, until squash is tender. Makes 6 servings, about 1 cup each

Special Milk Program Continued Thru Oct. 15

Secretary of Agriculture Clifford M. Hardin recently announced continuation of the Special Milk Program for the 1970-71 school year.

The Secretary said all State agencies are being notified by wire to authorize schools and child-care institutions to operate the program at year-age levels through October 15, 1970, the expiration date of the Congressional "continuing resolution" under which all USDA programs are operating pending passage of the appropriations bill.

Both the Senate and the House have approved $104 million for the Special Milk Program for the year ending June 30, 1971. The USDA appropriations bill is now awaiting action by a Senate-House Conference.

The Special Milk Program was first authorized by Congress in 1954, and provides cash subsidies to schools, child-care centers, and similar non-profit organizations to pay part of the cost of milk served to children

BEHLEN

BAR-MESH FENCING

GALVANIZED AFTER WELDING TO LAST A LIFETIME

Behlen steel rod fencing gives you years more of heavy duty service because it's dip-galvanized after welding. Weld spots are completely covered. No place for rust to start. And the thick zinc coating is up to six times heavier than the surface of ordinary galvannealed wire. Closer six inch spacing of vertical rods provides extra strength. Panels mount easily with inexpensive lag screws or "J" bolts through top and bottom loops . . . so "Look for the Loops".

ONLY $17.00 Per 16 Foot Section

Jane Elizabeth Logan Is American Dairy Princess

Jane Elizabeth Logan, a pert 20 year-old brunette from Mount Gilead, Ohio, has been selected to reign as American Dairy Princess and representative of the American dairy farmer until July, 1971

Jane was crowned July 1 in Boston at the 16th Annual American Dairy Princess Contest sponsored by the American Dairy Association and the Holstein - Friesian Association of America The coronation ceremony was held in conjunction with the 85th Annual Holstein-Friesian Association banquet

The Princess, daughter of Mr. and Mrs. Jack E. Logan was selected from among candidates representing 30 states She is a blue-eyed brunette, 5'6" tall, 128 pounds and the only girl in a family of four Her father is a dairy farmer with an 890-acre farm and a herd of 80 Holstein cows which produces 950 000 pounds of milk each year

Jane was valedictorian of her graduating class at Gilead High School and is presently a Junior at Ohio State University, Columbus, majoring in foods and nutrition. In addition to sewing and homemaking skills acquired during nine years of 4-H Club work, she enjoys playing the flute and piano, water sports, skiing, ice skating and tennis

Before winning the American Dairy Princess title, Miss Logan represented Ohio dairy farmers for a year as state dairy princess

Ice cream is Jane's favorite dairy food.

Jane Elizabeth Logan, American Dairy Princess, pauses for a refreshing glass of milk.

Joseph King Jr, Penn Dairies, Inc, Lancaster, was elected President of the Pennsylvania Motor Truck Association recently during the Association's 42nd Annual Meeting at the Host Farm Resort, Lancaster.

Teams From South Win All-American Judging

Teams from south of the Mason-Dixon Line won honors at the Pennsylvania All-American Dairy Show invitational youth dairy cattle judging contest

A team from the University of Maryland placed first in collegiate judging, North Carolina's entry won 4-H judging, while the FFA competition was won by a Virginia team

In taking first place in the collegiate judging division, the University of Maryland became the second winner of the Cuthbert Nairn rotating trophy which honors the president of the Pennsylvania Dairy and Allied Industries Association The trophy was won by Cornell University last year

Penn State University placed second in collegiate judging and was followed by North Carolina State University, University of Kentucky, Delaware Valley College Virginia Polytechnical Institute, Ohio State University and Cornell University

Illinois placed second in 4-H judging, followed by Kentucky, New York, Virginia, Delaware, Pennsylvania New Hampshire, Maryland and New Jersey

Second place in FFA judging went to a Pennsylvania team Other winners in order were Ohio, Maryland, New York and New Jersey

The FFA team from Virginia took top honors in Guernsey, Holstein and Jersey judging, while the University of Maryland team finished first in three breed judging competitions, Ayrshire, Brown Swiss and Holstein

BIG CAPACITY, NON-STOP CHOPPING WITH UNI-FORAGE HARVESTER

If there's chopping to be done, Uni will do it. With big 6 ft. wide windrow pickup, a direct cut attachment, 2 or 3-row crop head, or Uni stripper plate cornheads for making ear corn feed.

You'll be amazed at the non-stop cutting ability of this big capacity machine. Three upper feed rolls and six spiral knives chop hour after hour, with a more uniform cut . . . down to 3/16".

There's a choice of six cutter head screens to make even more uniform feed and better packing in the silo.

And that's only part of the story. Switch to Uni-Combine, Sheller, Picker, Tool Carrier or Rotary Snow Plow in an hour's time . . .

thanks to unique interchangeable Power Unit.

It's the system that saves you money.

30 HEAD SELL FROM ROGER ASHTON, CAMBRIDGE, N.Y!!

Mr. Ashton's man suffered a severe broken leg and Mr. Ashton must lighten the work load. We have picked the just fresh and close springers from the herd. If you are looking for milk, they are here. All by AI sires and with records up to 16,000 milk. Several 2 yr. olds with over 14,000 M. You will like them.

JAMES DONNAN, GALWAY, N.Y. SENDS 10 TOP YOUNG CATTLE!!

He has picked a good group to represent him at Garden Spot. Most are first calf heifers that are due about sale time so there will be no waiting for milk.

JOHN YOST, Narvon, Pa. SENDS 11 TOP YOUNG CATTLE!!

They are all 2 yr. olds and 6 have finished with over 500-lbs. up to 560 lbs. fat as 2 yr. olds. All are by Atlantic sires with over half being out of good record "Ivanhoe" dams. They will be ready for you to take home and get top production.

JAMES HARTEIS, EBENSBURG, PA. SENDS 7 TOP FIRST CALF HEIFERS!!

They will be ready to produce right after sale time. You will Like them.

JOHN METZLER SENDS A TOP!!

She is by a "Knob View" sire from Wm. Keplers in Md. and made 513 fat in heifer form. Out of a 685-lb. "Ivanhoe" she is due to Milk & Honey Ivanhoe. A real good one.

THERE WILL BE OTHER FROM OUR REGULAR CONSIGNORS!!

PLAN TO BE AT GARDEN SPOT ON OCTOBER 1!! IT WILL BE WORTH YOUR TIME!!

● Have You Heard

(Continued from Page 23)

peaches are thoroughly heated. To serve, arrange peaches on platter around meat.

When you prepare your family's summer clothing for storage, give attention to the hangers you use. They should be broad — as wide as the shoulder of the garment — and sturdy enough to carry the weight of the garment.

Shaped wooden hangers for coats and suit jackets are your best choice. They help garments hold their shape. And they're excellent for dresses, too.

Padded hangers are a good choice for lightweight garments. However, the padding must be smooth, even, and shaped for the garment if it's to do an effective job.

Store only clean garments. Wash-and-wear and durable press finishes tend to hold soil and stains. And unless soil and stains are removed, they'll set during the storage period. You'll find it difficult to remove soil and stains next summer.

You'll be wise to launder or dryclean garments you've starched before you store them. Starch will attract silverfish.

Next year when warm weather calls for bringing our light clothing, you'll be happy to find your family's summer clothing is clean and in good repair because you stored it properly.

AGWAY

NEW 3 POINT
